with mechanism cover and box-barrier removed

TYPE AM-13.8 AIR CIRCUIT BREAKERS

GEF-3875C

ORDERING INSTRUCTIONS

1. Always specify the complete nameplate reading of the breaker, and when furnished, of the mechanism.
2. Specify the quantity, catalog number, reference number, description of part and this bulletin number.
3. Standard hardware (such as screws, bolts, nuts, washers, etc.) is not listed in this bulletin. Such items should be purchased locally, if feasible.
4. For prices, refer to the nearest office of the General Electric Company.

NOTE:- All references to "right," "left," "center," "front," and "rear" designate the location of the part when facing the mechanism end of the breaker.

The following parts are recommended for normal maintenance:

(All other parts listed on following pages are seldom required.)
