TERMINAL LUGS FOR SEL-200 SERIES RELAYS

Several questions have arisen with respect to terminal lug types suitable for use with the SEL-200 series relays.

Following are the Thomas & Betts and AMP part numbers for ring terminals that handle standard wire gauges. These terminals can be used to attach wires to screw terminals on SEL-200 series relays.

Manufacturer: Thomas & Betts Corporation
Electrical Division
Tel: (201)685-1600

Part #	Insulation	Fits AWG Wire	Hole Size
RC-10	Nylon	12-10	#6
RB-14	Nylon	16-14	#6
C10-6	N/A	12-10	#6
BC14-6	N/A	16-14	#6

Manufacturer: AMP
Product Information
Tel: (800)522-6752

Part #	Insulation	Fits AWG Wire	Hole Size
34852	Vinyl	12-10	#6
34158	Vinyl	16-14	#6
35476	N/A	12-10	#6
34120	N/A	16-14	#6

This list of terminal lugs and manufacturers is not complete but is submitted for your assistance in finding available terminations for the SEL-200 series relays.

Of course, if 10-32 screws are preferred, the 100 series relay has screws of that size.

Making Electric Power Safer, More Reliable & More Economical.
